

**Dr. Paul Rodrigues** is the Chief Artificial Intelligence Officer of Microsoft's National Security Group and Partner (NSGP) Team, where he supports artificial intelligence efforts across US federal customers and the defense industrial base. Before Microsoft, Dr. Rodrigues was Principal Director of Data Science Innovation and the Natural Language Processing (NLP) Science Director at Accenture Federal Services (AFS), where he coordinated NLP efforts across Accenture's US federal client accounts.

Prior to AFS, Dr. Rodrigues was an Associate Research Scientist at two DOD University Affiliated Research Centers (UARCs) – the University of Maryland (UMD) Applied Research Laboratory for Intelligence and Security (ARLIS) and the UMD Center for Advanced Study of Language (CASL). He continues to teach in UMD's Machine Learning program.

Dr. Rodrigues has led 10 federally funded research projects, authored over 35 peer-reviewed research papers, and produced more than 20 comprehensive technical reports for U.S. government clients. He holds a Ph.D. and a M.A. in Computational Linguistics from Indiana University, and a B.S. in Computer Science from Stockton University.
