

Ryan Jessee

Ryan Jessee is the Director of Technical Program Management in the Data & AI Practice at MANTECH, where he orchestrates the delivery of AI and cloud modernization programs for U.S. defense and intelligence clients.

A former U.S. Navy Cryptologic Linguist, Ryan combines operational tradecraft with a background in software engineering to solve workforce integration challenges. He focuses on making advanced technology usable and governable, ensuring AI is adopted to enhance decision advantage rather than obscure human judgment.

Ryan holds a Master's in Global Affairs and Management from the Thunderbird School of Global Management and a B.S. in Computer Science from the University of Hawai'i.
